Convertitori elettronici disponibili senza protezione (type A) o con protezione (type B) nei colori bianco o nero, con flash, dimmer, remote dimmer 1-10V e dimmerabili in alimentazione.

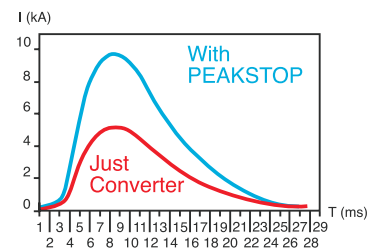

Electronic convertors available on without protection (type A) or with protection (type B) on white or black colours, with flash, dimmer, remote dimmer 1-10V and dimmable on the mains.

### PEAKSTOP

E' un dispositivo che aumenta la soglia di protezione contro le sovratensioni presenti nella rete elettrica. Si suggerisce l'utilizzo di questo dispositivo in tutte le installazioni all'esterno e dove vi sono carichi induttivi.

Useful device to increase the protection threshold against overvoltage on mains electric lines. It's use is strictly suggested on every outdoor installation or in presence of inductive charges.
